

GIS seminars – 2006

Dec. 7, 2006

Fatemeh AHMADI NEJAD MASOULEH
(*University of Tsukuba*)
Using WVD18 to Construct Voronoi Diagrams

Oct. 26, 2006

Chiaki Mizutani, Mikihiro Hayashi, Takatoshi Asai
(*University of Tsukuba*)
ArcPad Applications

Sept. 7, 2006

Hiroyuki Kusaka (*University of Tsukuba*)
Some studies on Heat Island

July 27, 2006

Rajesh Bahadur Thapa (*University of Tsukuba*)
Potential of future transportation infrastructure in South East Asia

June 22, 2006

Cui Xiolin
(*University of Tsukuba*)
Researching land-use change causes of loess plateau region in northern Shaanxi Province: A case of Jingbian County

Apr. 27, 2006

Chiaki Mizutani
(*University of Tsukuba*)
Environmental Evaluation and Diagnosis Method using Remote Sensing Imagery: -Geometric Correction of Satellite Images using Genetic Algorithms

Feb. 23, 2006

Yuichi S. Hayakawa
(*CSIS, Univ. of Tokyo*)
Topographic map and DEM construction using a handy laser range finder and GIS: Applications to geo-archaeological surveys in Syria and Turkey

Jan. 20, 2006

Chattichai Waisurasingha
(*University of Tsukuba*)
Utilization of RADARSAT Data and Digital Elevation Model to Assess Flood Damage for Rice Production in Chi River Basin Flood, Thailand

GIS seminars - 2005

Dec. 1, 2005

Courage Kamusoko
(*University of Tsukuba*)
Integrated Analysis of Biophysical and Socio-economic Factors for Modelling Land Use/Cover Changes in the Bindura District, Zimbabwe

Nov. 17, 2005

Charles Ndegwa Mundia

(University of Tsukuba)

Dynamics of land use/cover changes and modeling urban growth of Nairobi city using cellular automata and geographical information system

Oct. 28, 2005

Obanawa Hiroyuki

(CSIS, Univ. of Tokyo)

DEM creation and 3-D geomorphological change measurement using STRIPE method

May 12, 2005

Prof. Thad Wasklewicz

(University of Memphis)

GIS Education and Certification Programs at University of Memphis
